

WATER SAVERS UNITE!

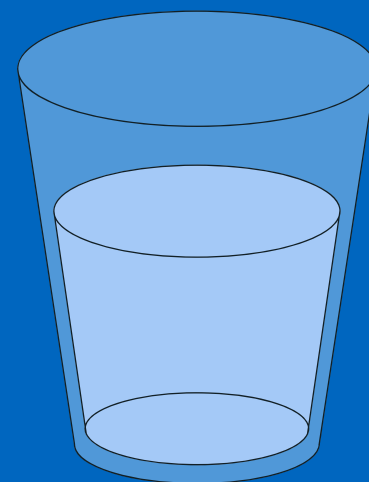

1

- Turn off taps when not in use

Always turn off the tap when not in use.

2

- Using cups for drinking

Using cups to conserve water and not waste drops when drinking.

4

- Using Water Jugs

Keeping water in water jugs instead of drinking from taps can save you water.

3

- Taking Shorter Showers

Taking faster or shorter showers is a good way to reduce water consumption.
