

WHY IS HANDWASHING IMPORTANT?

IT KEEPS GERMS AWAY!

Washing your hands removes tiny germs that can make you sick.

IT HELPS YOU AVOID GETTING SICK

Clean hands mean fewer chances of getting colds, coughs, or tummy aches.

IT PROTECTS YOUR FAMILY AND FRIENDS

When your hands are clean, you help stop germs from spreading to others.

IT MAKES EATING SAFER

Before eating, wash your hands so no germs go into your mouth.

IT KEEPS EVERYTHING CLEAN

Clean hands help keep your school and home safer for everyone.

WHEN SHOULD YOU WASH YOUR HANDS?

- After using the bathroom 🚽
- Before eating 🍴
- After playing outside 🏃♂️
- After touching pets 🐕
- After coughing or sneezing 🤧

HOW TO WASH YOUR HANDS PROPERLY

1. Wet your hands with clean water.
2. Add soap and make bubbles! 🫧
3. Scrub for 20 seconds — don't forget your fingers, nails, and thumbs!
4. Rinse well with water. ✨
5. Dry your hands with a clean towel or tissue.

REMEMBER THESE HANDWASHING TIPS!

- Always use soap and water.
- Sing the "Happy Birthday" song twice while scrubbing. 🎵
- Make sure your hands feel clean and fresh.
- Clean hands help keep you and your friends healthy! 😊
